Submission
Hello. I would like to see more large lot (2+ acres) included in this plan. I have been making various submissions over the years In the various land planning initiatives around here (bardia, edmunson park, gledswood hills, leppington, etc) and have always asked that more a large lots be included in your city plans. From what I can see, these requests have been completely ignored. People want space. They don't want to be on top of each other. Please please please include more affordable large lot options (2+ acres). We are running out of options to house our horses on property close to where we live. I do not and cannot travel excessive distances to see my horse. Why are you not providing large lot options for people to keep there horses close to them?

I agree to the above statement
Yes
