Under Stage 1 Land Use Plans my property will be affected by the proposed Non Urban Land Zoning.

My Family and Myself will be greatly affected if my property gets rezoned to non urban land. Below are some of the effects;

1. If our land is rezoned to non urban land and land is acquired, my family and I will not be able to continue our semi - rural lifestyle which we as a family have come to love. It is the only lifestyle that our children have lived, they have been living here since they were born.
2. we are happy where we are living, there is nowhere else in Sydney where you can have acreage with such convenient access to all amenities yet live the rural lifestyle. If land was rezoned and acquired, we would need to move further West and hence our everyday costs of living would increase, such as travel to work, main shopping centers and the like....
- 3.. I don't understand why our property is being taken as Non - Urban Land, we purchased the property as 1 : 100 year flood affected and this was changed in 2012 without public consultation and without us, the ratepayer being notified.(For the record, my property has never been affected by floodwaters or has there been any damaged cause by flood rains) I don't understand how they can say that the property is flood affected without it ever been flooded.

In conclusion, we are happy where we are, if we are forced to move, all we ask is that we are fairly compensated.
