Content:
My name is Samija Serifovic from [REDACTED] and I am 69 years old.
We purchased this property in 2011 with my son with the intentions of building another dwelling and spending the rest of my life here, however long or short that may be. Our dream was to have grandchildren running around here. I hope this rezoning does not cut my life short. We were very happy here. My son still wants to build another home on this property but we are very scared of what is to come. We just want more answers. We also wanted to be treated fairly. We do not believe our land should be in any non-urban category and still believe our land is as developable like our neighbours across the road. At the time we purchased this property, places across the road were of similar value but now I feel this rezoning will make their properties worth a lot more.
This is our retirement money, so please do not play with that. It is really causing extra stress in my life. We cannot help but think about it every day. I am extremely proud of what we have here so I hope nobody is trying to devalue it. I cannot put a value on my property and have never even thought about selling it or moving. I am too old to think about that.
