Since the release of initial documentation on the new Aerotropolis Core plans we have endured many a sleeples night.  We spoke to Mr Brett Whiteworth at one of the local community meetings and he emphasised that the current so west non urban land zoning is currently just a study area. However, with many questions still to be answered we quite concerned.  Our concerns stem from the fact that a substantial amount of our property has been proposed to be declared as urban land in line with the south creek catchment zoning. This is despite the fact that 0% of our property is declared as flood zone of any description including Probable Maximum Flood area.	-
