Submission: The whole lakes system should be retained for environmental open area parkland. None of the area should have been re-zoned. The original scheme was approved on the fact the whole area would be opened up to the public for fishing, water sports, parkland. Penrith council insists on adding 1000's of new appartments to the Penrith area and you want to decrease the open area. This is a disgrace! Penrith Council should say no to more development, no to money over the environment and no to going back on your word.
