Submission: A positive NO to any changes, leave the land as it is. There is enough land in the Penrith area without adding any additional industrial spaces to spoil the environment for the next generation. Allowing any changes will not stop at this area alone and it can be seen that all the unzoned land will end up being for employment as well. Don't spoil this area by building factories, Penrith needs to keep this whole area as parkland and allowing everyone access to the Nepean River. Wasn't the initial plan to be PARKLAND from the beginning, stop changing what was originally promised.
