Suburb/Town & Postcode: 2141

Submission file: [webform\_submission:values:submission\_file]

Submission: - A fenced-up dog park is essential for a growing community, especially for high-density residential areas. - Footpath landscaping is important to provide a healthy and safe urban design environment for the community - Parking on the Carter St should be minimum 20 m offset from intersections and building exist/entrance, as currently, vehicles are creating a blind spot for turning vehicles, this is a safety hazard for now and potentially future if no changes are made. - The minimal visitor car parks should be considered in the residential buildings
