Submission: If the density of this area is being increased there needs to be at least 1 high school. There has supposed to have been a high school being built for at least 15 years and there is still nothing. I do not support height increases for this area. 10-12 storeys is too high. I don't believe this area can support so many people. I hope that building inspections will be thorough and independent and that the work will be of high quality so there is no repeat of the Opal Tower issues.
