---

Dear Sir/Madam

Infrastructure NSW is overturning existing planning laws and proposing large scale changes in both height and density of buildings for the historic Pyrmont Peninsula.

(pushing through with these items  
during Covid 19 lockdowns and restricted meetings!)

Massive towers may be approved on government land formerly occupied by the Fish Markets and the site of the recently rejected Star Casino DA.

“Dressed up” as providing cultural and economic opportunities for the Pyrmont Peninsula -  
it is difficult to accept that these changes could carry the area into a future that prospers due to its great architecture and social amenity.

State Government has a mandate to provide best, even extraordinary outcomes at every planning point.  
PLEASE DON'T SQUANDER THIS CHANCE TO CREATE A WORLD  
CLASS PRECINCT HONOURING  
PAST, PRESENT AND FUTURE  
BY PUTTING PEOPLE FIRST AND FOREMOST IN DECISIONS MADE  
FOR THIS HISTORIC AND BELOVED  
PENINSULA

Sincerely  
Kris Leveson
