Submission

This is shallow document. It is full of generalisations and has lots missing.

I am active with the boating around Blackwattle bay and I am concerned about the wharves and moorings that are going to increase the boating traffic in the area. There should be only provide passive boating facilities.

As am indigenous person I also object to the off hand way you deal with "Aboriginal Heritage". What are your plans? The public land you intend to give to developers should be given to the Aboriginal people to treat with the care and respect the land deserves.

I agree to the above statement

Yes
