Submission: Dear Sir, Madam, The Warnervale Airport (Restrictions) Act 1996 should be abolished as it is overly restrictive and hinders the attainment of the objects of the Environmental Planning and Assessment Act 1979 with respect to economic and orderly development. Council and Federal/State governments should do more to encourage additional GA and RPT operations on this site and require development on the airport site to be aviation-based in order to ensure long-term benefits for the community. There is no need to restrict the aviation operations on this site as it is well located close to existing transport infrastructure with a low elevation and is conducive to offering safe aviation operations in this location without creating any significant land-use conflict. Please telephone should you wish to discuss. Regards, John McFadden 0422 379 612
