Submission: I would like to congratulate the government for carrying out this long awaited review into Warnervale Airport. As a local resident for 40 years, I would like to express my support for the continued operation and potential expansion of this airport. There is a tremendous opportunity to develop an aviation hub which will deliver much needed jobs to the local community. As you are aware, this area has higher than average unemployment rates. The Central Coast is the third largest regional area in NSW. We have a population which rivals Canberra, yet we are the only region without an airport. It doesn't make sense. At present, the airport plays a vital role in training future pilots, as well as playing a key part in emergency operations including medical emergencies and the recent bushfires. We should be looking to attract aeronautical business to the area in terms of manufacturing, where we could also train future engineers as well as pilots. I believe if the government and council is proactive, and gets the planning right, there is unlimited potential for the Warnervale Airport hub. With the area continuing to grow, we must think of local opportunities for our future generation.
