Submission file: [webform\_submission:values:submission\_file]

Submission: I am a local resident I live under the flight path I am also a pilot and I would like to say Warnervale Aerodrome provides a vital service to the central coast it is a long way from the central coast to the next nearest serviceable aerodrome it would be devastating to lose Warnervale airport as for noise complaints I've lived here for 14 years I don't even hear the aircraft taking off over my house anymore they are No louder than a car in the street I look forward to one day parking my aircraft at Warnervale but something definitely needs to change about the limited takeoffs and landings restricted at the aerodrome the number is far inappropriate this restriction should be removed completely It won't be long before this restriction has a detrimental effect on local business leaving the Central Coast community with no where within reason to learn to fly or enjoy the services provided by the Central Coast aero club. The air field is used by light sport aircraft or light general aviation aircraft the facilities are not big enough to carry a large aircraft this making it the perfect little aerodrome for education and social flying Please I beg of you to unrestricted this airfield and allow for the social flying and small aircraft training to continue the way it has for many many years without incident
