Submission: I am a private pilot and have been a member of Central Coast Aero Club for about 10 years. I also fly from Bankstown airport. Warnervale airport has played an important role in my training over the years. As an airport without a control tower it has enabled me to quickly and efficiently complete components of the training syllabus which would otherwise be less cost effective in the more congested environment of Bankstown. Warnervale airport is also a vital alternative to airports in the Sydney basin, in the event of adverse weather or mechanical problems. I have personally experienced a weather-related incident where the option of Warnervale as an alternate was greatly appreciated. Any loss of amenity at Warnervale would be a significant blow to the Sydney and Central Coast private flying fraternity, as well as the many businesses based at the airport itself. As an industry, General Aviation and Warnervale airport in particular need support from all levels of government, rather than further restrictions. Thank you for considering my submission.
