Submission: A modern city requires transport. If the Central Coast is move forward and join the modern world it needs an airport. I must travel frequently for work by plane, which requires me to travel for 1 - 3 hours to either Mascot or Newcastle. Most people effected by the potential noise will complain, but the airport has been there for a long time, how many of these protestors moved into the area knowing there was an airport in Warnervale. People who will be effected by both the current airport and any future expansion surely have a financial gain if they have bought into an area with an existing airport and then have it removed.
