Submission file: [webform_submission:values:submission_file]

Submission: Hello, I am a local citizen and it is my belief that shooting an entire local industry in the foot is bad for the local community. The 88 movement limit is doing just that, airports can bring major cultural and economic value to a growing community like ours on the central coast. I am aware that people in our area believe that increased air traffic will decrease property value, but to the contrary if properly supported and allowed to operate the industry and value an airport brings far outweighs the negatives. Thank you
