Submission file: [webform_submission:values:submission_file]

Submission: I strongly suggest keeping the total number of residents in Carter street low as there are not enough car space already. It is very packed during the office hours now and especially during the large scale events in the Olympic Park. It isn't reassuring that it is a precinct, if there are no direction connections with the metro station exits as it supposed to have some commercial buildidngs nearby in the future as well.
