Submission: Hi There is no mention in the information sent on the latest plan regarding the Hill Rd off ramp from the M4, only that improvements to Hill Rd would be made. The RMS website indicates this was planned to support the Carter rd development. This has not been updated in over a year. What is the status of the proposed off ramp and will it be in place to support the additional development at Carter St? Also will you work with council to implement a resident parking scheme to ameliorate the impacts on Newington of the inevitable influx of the people from Carter St who don't have parking?
