Submission: Hi, I am a current resident in Carter Street area and I'd like to make the following suggestions: -  
Could you please remove the substation in the Carter Street area as it looks very bad to be placed in a living suburb. I believe this substation is partially operating as the main production is taking place in Sydney Olympic Park substation. If the substation is necessary and cannot be removed can we at least cover it with a decent looking structure - Can we please rezone the area to Sydney Olympic Park instead of Lidcombe? Many people including myself find it somewhat confusing and not intuitive
