Submission

To Whom it may concern,

My wife and I are owners of 29 Highland Close, Macquarie Links and would like to share our input into the proposed Glenfield Precinct plan. We are both strongly in favour of there being access to Campbelltown Road from Macquarie Links Drive.

Reason 1 - Environmental. Without access to Campbelltown Road and the new precinct residents will have to drive the long way around via the highway greatly increasing traffic and the carbon footprint. The difference in distance is huge. Instead of a short 2 Km stretch of road, it is a 10 Km route to drive around. Many residents who will have friends, family and work in the new precinct will have to do this trip many times a week - all of which creates longer journeys with more CO2 emissions. In these times of unprecedented climate change we need to be doing everything we can to reduce our emissions and encourage shorter journeys.

Reason 2 - Convenience & time. Similar to Reason 1, the journey time would be reduced significantly with access to Campbelltown Road. Currently the long drive around would take approx 20min each way, whereas the through road would reduce the journey to 3min. With my wife and I expecting our first child, it would be amazing if we could reduce our commute time to drive to child care, and family. If we could avoid a 40min round trip it would benefit work/life balance, reduce unnecessary driving and be better for overall well being of the growing family.

Thank you for seeking the input of the community, please feel free to reach out should you require any further clarity to my feedback.

Warm Regards,

Mark & Tiani Alcorn
