I would like to know if a leisure facility is being considered in this expansion? Considering the closest leisure facility is Macquarie Fields and the majority of the demographic moving into this area is CALD background, swimming lessons and access to water safety programs is imperative. The local leisure centre is at capacity with a 24 month waiting list for swimming lessons thanks to over development on the Denham Court side in Edmonson Park. How are you proposing to not further burden local communities and not contribute to the high drowning rates in the prominent demographic? The demand for these aspects are huge given most migrant and CALD parents dont swim. What are the plans for this? I am sick of shiny development without forthought on where these people are going to do their community and leisure activities.

**I agree to the above statement**

Yes
