

Hello officer,

I am a Glenfield resident. I am writing the letter to inform and help you treat every individual property more fairly.

As you can see, I search google map and find the 500 meters walk distance from Glenfield station (see from Image A1 – A8). Then add all information as one drawing (see Image 1).

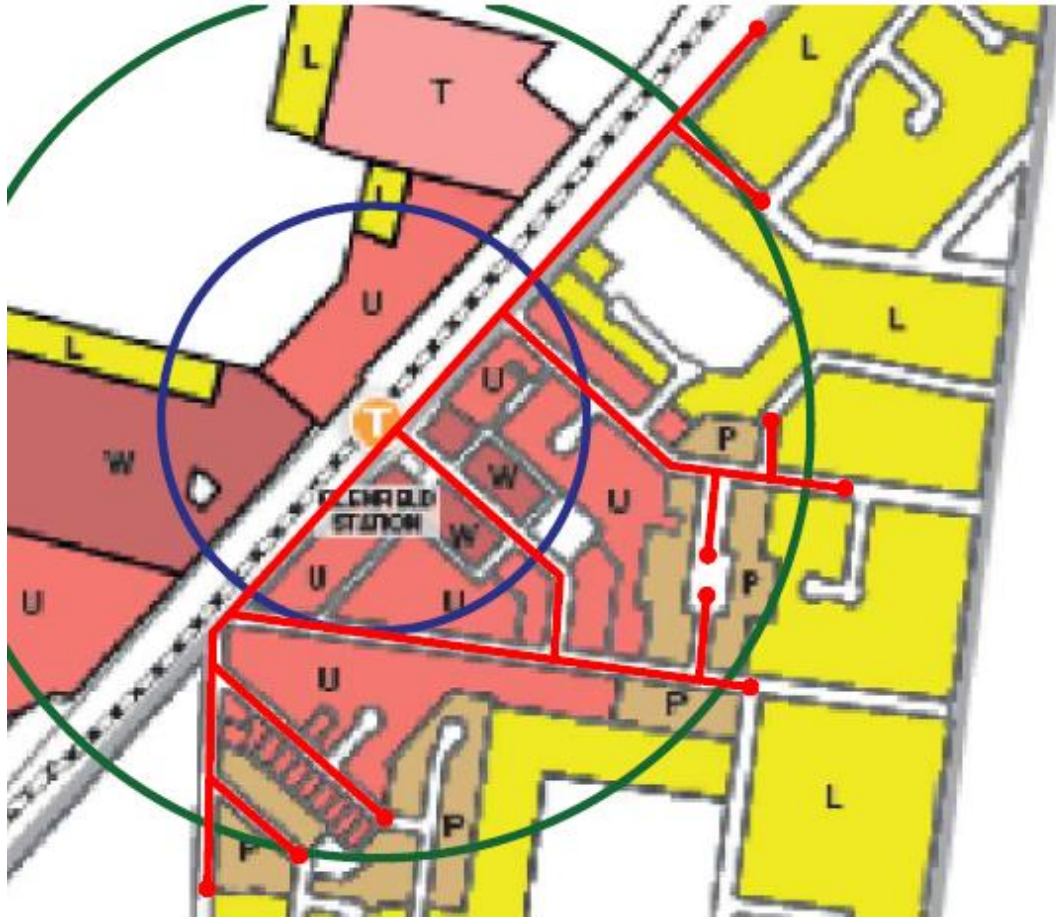

Image 1

Red Dot: 500 meters walk to Glenfield Station

Red Line: Street Line under 500 meters walk to Glenfield Station

Finding:

The South residential properties win too much because all area marked as P and U.
The East residential properties lose somehow because some properties are not U or P but L.
The North residential properties lose too much because many properties are marked as L.

Suggestion:

- 1) Change all L Properties within 500 walk distance to P. or
- 2) Remove some P and U from south properties change back to L or P. or
- 3) Glenfield Public School within the north Area. Please consider the safety issue. and
- 4) Anyway, please treat all properties fairly. After all, property is big money for every taxpayer.
