Submission: Hello, My name is Jina wood and I'm writing to you because I live at [REDACTED] [REDACTED] Bringelly now I know your probably think yea so what but I'm writing because I want someone to tell me what is going to happen to me my husband and my 3 kids who live there I don't want to be lied to and ignored and passed onto be someone else's problem all I want is for someone to be honest now I know that's really hard to do when you have no real idea of what is happening but for someone like me who has a young family and had the further all planned out only to have that ripped out from under you knowing there is nothing you can do about it. Now all me and my husband do is read all the information about what is going to happen to our home and land I guess you have no idea how much we stress and not get much sleep as you are always worrying about what is going to happen and when no one is really giving you much information other than repeating themselves about the same thing but not really getting any real answers but then again I guess you wouldn't have a clue as you are not in our shoes you're not having all your hopes and dreams ripped away from you so to you this is just another letter of someone who is looking for more money but this has nothing to do with money we are not just talking

about a house we are talking about our home we have worked hard to have what we have and all we are asking is for someone to be honest and tell us about what will happen and whether or not someone will be buying our property or if we are just meant to hand it over and expect nothing I get you need the land for whatever reason but please all I'm asking is for someone to tell me whether or not we will be getting the money we need to move and make a new home else were as everything we are hearing is tell me we are not and you have no idea how much stress this whole thing has caused me and my husband. I know we live in a 1 in 100 flood zone but if you look around a lot of places should be like that but people need to the land and money so they change it and build it up and zone the land according to whatever they please. I understand this has to happen but is it really hard to be honest and just tell people the truth instead of making us all worry and stress and panic do you get joy out of seen people this way? We bought our home thinking it would be out forever home only to find out the airport was going up and that one day we will have to move and that's fine all I'm asking is for you to be fair and honest help put my mind at ease so I'm not worrying about how I'm going to look after my kids when the time comes or were we are going to go because we are unsure if we can sell our home please tell me what we will be zoned as and who will be buying our land and how much that's all I'm asking so if there is any way that you have a heart a family then just be honest and tell me what I'm going to be dealing with. Reading all this information is really bring me a lot of pain and heartache so please give me a straight answer. Thank you Jina Wood
