Submission file: [webform\_submission:values:submission\_file]

Submission: To whom it my Concern, After reading the latest documents sent by the department of planning, the following feedback applies concerning [REDACTED] Bringelly 2556. We feel that the zoning implemented for our land is acceptable, knowing our land is clear from any environmental issue, we ask for the department not to include us in any future planning for parks or acquired land other than private use with the current zoning, we understand the detailed planning process involved, being close to government land we highly recommend any parks or acquired land be conducted on that land. We acknowledge the work being completed by the department, especially in the last 12 months, we have seen a lot of progress and also communication with the department has been much easier which for us is really important, We look forward to working with you in a positive way and hope to contribute to the one in a life time project ahead. Kind Regards M.Karaki
