Submission: My name is Mary hill I live at Kemp's creek I have the one in one hundred flood level , we have been told that the back is required as green space , being green space will be just as important as being anything else , and it is to be purchased the same as anyone else ,we paid for it and you must pay for it ,it is the moral thing to do , I have come here with a young family worked hard to live here , the land was not given to me I had to purchase it , and I'm sure if you were in the same situation you would not like this to happen to you , it has caused me And my family unnecessary stress , [REDACTED] , I will not be able to cope if you come in and expect my family to hand over our land that I have worked so hard for , it will put me over the edge , this will be the final straw , you all need to have compassion and put yourselves in our situation , you are playing with our lives and our future , you need to do the right thing by us if you can wave the one in one thousand you can do the same for the one in one hundred, this is our land not yours . Had you not wasted money on the rebuild of ANZ stadium you would have money to purchase our land , had you not wasted money on the light rail there would be sufficient money to purchase our land at retail prices IE housing land or industrial prices our land is just as important as anyone else's land .
