Submission file: [webform_submission:values:submission_file]

Submission: We are very concerned with the proposed changes to our property. It would be appreciated if you could provide a response to the following questions. - Is there an acquisition clause if your land is being rezoned to Environment and Recreation zone - if our houses/sheds burn down can we rebuild - once rezoned to Environment and Recreation can we still have horses on our property - is a riparian zone proposed for our property and if so can we still have horses on our property - will our land be acquired - will any work be undertaken on our property - what does "providing amenity whilst in private ownership" mean - If our houses/sheds burn down can we rebuild - how will airport noise affect us I understand most of our land is being rezoned - how will that affect us once the land is rezoned and acquired if we need to sell - will our property be devalued due to the new zoning. We currently have three families living on the property and we have lived this lifestyle for over 30 years and it is very stressful when we do not know what is happening. We had a meeting and all we were told was "i dont know put it in writing". This is a very stressful time for our family. Please respond to my questions as soon as possible.
