Western Sydney Planning Partnership
RE: Proposed Thompsons Creek Parklands
Location:
The proposed plan indicates that our property will be acquired for parkland. Acquiring our land will have a big impact on our lives.
We gather that this proposal was not an overnight decision, so we could not understand why
This proposal also states that our land is located in the 1 in 100 flood zone. We find this unusual as when we purchased our property, one of the main buying factors was that it was NOT in a flood zone. We cannot understand how and why it is suddenly considered a flood zone? We request that the boundary be pushed back where it would not affect our land leaving it intact.

If this proposal is approved it will to please reconsider.	. We ask you
Many Thanks,	
please keep submission private
