I wish to submit my strong objection to land required for open space, water management, public purpose -ear marked to be zoned Environmental Recreation along South Creek, being left under private ownership.

This land should be acquired under just terms compensation act through out the whole stage 1 release NOT JUST THOMPSONS CREEK!

This is discriminative & will cause a whole range of legal issues for example, trespass, live stock being released onto surrounding roads, dogs attacks protecting their property from intruders,/threat, public liability issues, insurance coverage issues etc etc. in my option this proposal to save the Government money, has not been very well thought out with regard to the implications.

Kind Regards
