Submission:

Simple points:

You have named the airport after Nancy Bird Walton, have the decency to put in place, now, the name for the planned terminal building after Andrew Delfosse Badgery (family name responsible for Badgerys Creek and early aviation links - Google it).

Include a Waste to Energy incinerator within the precinct (power generation and aid to reduced landfill). An early build would see a quicker return.

Accelerate the rail line connection to the South East and North West (for once have major rail transport infrastructure in place BEFORE the completion of the airport).
