Submission:

I do not agree to a new rezoning of land for environmental and recreational use at no expense to the government.

We have all bought our land and if the government wants it for green space then they will buy it at a fair price.

I also object to the outdated flood study to used for this proposal.

This is Australia and in this country if you want something to own and use for a purpose by law you have buy it, anything else is theft.

Please remember that people have worked hard to buy their land and for some it is their retirement fund.
