Submission: I grew up in bringelly, went to bringelly primary school and then moved on to the high schools. Road my horse around the streets with friends, many who still live in the area. My parents worked hard to buy their property and are still working on paying off their mortgage. They understand that growth is needed and the airport will be going ahead, but why should it be at their cost? Being zoned environmental will make their hard work worthless. Not only them but everyone else that is going to be affected by the zoning. Hard working people that have been paying their homes off, paying their taxes for what? For it to be zoned so that it's now worthless?!? The stress that the government has put on the residents of bringelly and surrounding affected areas is disgusting. What happened to aussies being given a fair go? Not stripping them away of their hard earned money. The emotional stress and physical stress from these proposed zonings is going to do permanent harm if this zoning goes through. My parents have been through enough from cancer early last year to a car accident that nearly took both their lives which my mum is now unable to work. Taking their whole life savings is what you will be doing if this zoning goes through. Where is their fair go?
