Submission: Hi I would like to put my point of view and the point of view of all my family members and neighbouring community members. I live on Victor Avenue in Kemps creek and have lived here for 11 years where i have raised my boys their whole life. We have recently been draft zoned Environmental recreation which to me doesnt make sense. I had a one on one meeting which was extremely confusing basically telling me what i want to hear that we will be better off in the future but that's not what i beleive will happen. I believe you have paid millions upon millions to make this airport work and you hold back on purchasing land from true Australians who have worked and paid taxes their whole life to build an inheritance for their children. Does this sound right to you?? Put yourself in my shoes and see how well it sits with you. We are not opposed to the airport you can build whatever you want but dont do it on tax payers money who have worked their butt off to build a future for themselves. If you want to rezone the land its simple BUY IT FROM US ust like we did when we wanted it. You cannot expect us to have the same resale value with the future zoning you have proposed. It is unfair, unjust and unaustralian that a government in a country like ours would do this to their people. I am not a dole bludger, i have never taken a cent off the government and yet i feel like i should be those

things because people who work and try and get ahead in this country all seem to get everything and us hard workers get the rug pulled out from underneath us. We have suffered severe mental health issues since all of this started and it has put a massive strain on my family. All we ask is to be treated fairly and just and be paid the equal value to what our neighbours land is valued at. At themoment we are all equal but with the new zoning no one will want to buy our property. What if we want to move?? What of we get ill and cant live here anymore?? I have elderly parents that live with me and up until all this rubbish has come out they were perfectly fine. Since we have heard of all the rezoning etc they have suffered from many diffenent medical and mental health issues. This is not fair. All we ask is that you treat us fairly and acquire our land if you want to rezone it. We didnt ask for this you are forcing this on us and if this were in any other life matter you would be charged for it as no one should be forced to do anything. We dont live in Russia or a third world country . This is Australia for goodness sake. Look after your people and treat us how we should be treated and stop trying to ruin our lives because if you don't acquire our land that is exactly what you will do.
