Submission: I strongly oppose the proposal to rezone part of my land backing onto south creek to environmental and recreation . I feel we should be fairly compensated by the government if they would like to develop this into parklands and not left under private ownership . After acquiring 100% of our land let us move on , then rezone it what you'd like . We are sitting on 5 acres therefore should be bought out at the whole 5 acres not part of. I feel when we bought this land years ago you already had a vision yet we still paid for the whole lot not part of. At every presentation , community meeting , one on one meetings I am still unclear as to what's in store for us. This has caused myself and my family uncertainty as to what our future holds therefore uncalled for stress and sleepless nights. I'm extremely annoyed to think your intentions are to rezone us to suit yourself , to pay us peanuts, then redevelop and resell and make a lot of money out of overseas investors perhaps . Who knows what your intentions are as everything has been as clear as mud to me. Don't give me the government hasn't got the funds to acquire our land , cmon Seriously you come up with billions of dollars to help aid other countries how about looking after people in your own backyard. You want our land ? Then pay us out fairly so we can move on elsewhere. We had long term visions for our home which has been

cut short and dragged out with vague information that is no good to anyone . Get your act together , deliver honesty and fairness to all affected residents and make it swift so we can move on .
