Submission: I bought my land 33 years ago. I built a home for my wife and three children. I have to say I am very disappointed in this Liberal government for the way it is handling the zoning of peoples land. I do not agree with the environmental green space where land owners get to keep their property but cannot use it for any other purpose. So the government gets its green space for carbon credits for nothing and the landholder is left with a useless piece of property that no one else would want either. My parents brought me to Australia 58 years ago. He believed that Australia was a free and fair country well I think he would be very disappointed the way things are now. If my father wanted our government to take peoples land and devalue it for the governments own benefit he would have moved to China or Russia. It is a sad on todays government. I do not agree to any new zoning environmental/recreational for the Aerotropolis to which to date has been undefined.
