Submission: We cannot tell you the stress this has caused our family and our future plans for our retirement, we have lived in [REDACTED] and have enjoyed every moment but the last couple of years has been nothing but stress, how can residents reside in [REDACTED] with all the noise, dust and activity happening, why is it that some residents are being zoned and others not? How is this fair? Understand we are not against progress for a future airport but are gutted that some are in first stage and some are not. We know find ourselves in the middle of a mega urbanisations of our surroundings through the construction of a 24/7 airport. We realise that infrastructure and industrial progress is a must for modern society and we not adverse in this occurring however we do object to the fact that we will go from a peaceful rural area to having to cope 24/7 airport who flight paths are unknown at this stage. How can residents be put through living on these dangerous roads that have killed many innocent people and the amount of traffic from trucks and many more residents. It is estimated that in 18 months 4800 workers will be working at the airport site with Elizabeth drive and northern rd being main thoroughfares. Our solution would be to place us in the first precinct release.
