Submission: I have resided on my property [REDACTED] years in KEMPS CREEK and have enjoyed every moment but the last couple of years but how can residents reside in Kemp's Creek with all the noise, dust and activity happening, why is it that some residents are being zoned and others not? How is this fair? We have tripled in traffic, tripled in air quality so why have we not been thought of to be in the first release. We realise that infrastructure and industrial progress is a must for modern society and we not adverse in this occurring however we do object to the fact that we will go from a peaceful rural area to having to cope 24/7 airport who flight paths are unknown at this stage. I bought my family here for peaceful living but clearly this has not been the case so why again are we not in the first release. Thank you for your time
