Submission: We have been living in Kemps Creek [REDACTED] and purchased this property for our future retirement. We cannot tell you the stress that living around these suburbs at the moment as the trucks, the air quality, the traffic, it truly is horrendous, how are residents suppose to put up with this? Understand we are not against the future airport but what we are against is living through a 24/7 airport and the future development congestion which we are experiencing. How can residents be put through living on these dangerous roads ie (Devonshire rd and Elizabeth drive) that have killed many innocent people and the amount of traffic from trucks and future cars is just getting worse. Why have governments not put us in the first precinct release and release us Residents of all this stress. Since this started from last year every community consultation has been very vague. Every government department lacked transparency and left us in the dark and why are we called to community meetings that give us no information or answers, I would like to know what private land ownership means in NSW. We will not stand for this and we are only asking for fairness.
