Submission: I am a resident from [REDACTED] and lived here since 1989, I have raised 2 children which still reside on our property and purchased this property for our future retirement. We cannot tell you the stress that living around these suburbs at the moment as the ongoing earth works are causing stress as the kids have now developed asthma and is extremely disappointing. One must say that the roads are truly dangerous as my daughter was almost killed on Elizabeth drive so we cannot understand why we haven't been placed in the first release. Understand we are not against the future airport but what we are against is living through a 24/7 airport and the future development congestion which we are experiencing and our major concern is there has been no road upgrades to prevent deaths. Why have governments not put us in the first precinct release and released Us Residents of all this stress. I cannot understand why we haven't been put in a priority because schools are getting larger and more residents are moving in, I do not want to live in a suburb that is traffic congested as I would like to be able to move and retire. Since this started from last year every community consultation has been very vague. Every government department lacked transparency and left us in the dark and why are we called to community meetings that give us no information or answers, I would like to know what private land ownership means in NSW. We will not stand for this and we are only asking for fairness. Please do the right thing for all residents
