Submission: To whom it may concern As residents for the last 51 years of this so called South Creek Precinct we are very disappointed with the latest attempt of rezoning this area Environmental/Recreational Parklands. The previous attempt of zoning Non Urban completely destroyed the value of land in this area. Looks like it was done intentionally to bring down the price of properties. It is very unfair! We have lost all trust in this government. Land is very valuable no matter where it is. Especially when it is so close to a world class Aerotropolis and an International Airport. This 1:100 year flooding could be mitigated if the relevant authorities looked after the waterways, kept it clean from overgrown vegetation and waste material. If this zoning of Environmental/Recreational goes ahead the government needs to acquire these properties at a fair price, so we could replace what we have here, or leave the zoning as it is now - Residential, and stop the confusion, anxiety and uncertainties that is affecting our health and wellbeing and let us get on with our life. Sincerely Rebecca Maday and family 24.02.2020
