Submission: I have lived here since around 1989. We purchased here to bring up our children and enjoy the lifestyle. We have seen lots of changes and recently have been very disappointed the way in which matters have been handled by the Department of Planning, Industry & Environment. This has been our home and our nest egg and at every opportunity your decisions are impacting the money we can receive and the quality of life we can enjoy. I recently saw your cartoon. advertising. Where is your story taking you??? Are you people for real??? A cartoon about the aerotropolis?!? Seriously??? This isn't a game...you people sitting in your office are playing with peoples lives. Simply!!!! •I strongly oppose dezoning my property to any Environmental zone...so NO environment zone! •If you need to change that zone to Environment then you can do that after you purchase it from me. •We are not there to create Greenspace to balance the lack of Greenspace in the Oran Park Perich development *You have The Rossmore Grange to use for Greenspace if needed...that is more than enough. •To have lots of Greenspace next to the airport is dangerous for Bat and Bird strikes •In the recent floods we had no major flooding and once the creek is cleaned and dredged it would completely be insignificant and you can still build on here •The way in which your department has dealt with us

landholders has been horrible! When questions are asked no real answers are given. *How did the tree huggin policies help the recent fires? They didn't! And you want to bring the same to a business residential area?? *The stress all of this has caused us is unbelievable...but yet your department has continued to push the unfair agenda. *I was there when we met the then Planning Minister Anthony Roberts and he flatly said that we will not be out of pocket and the decisions will not affect us negatively *As we did last time with the Flood lines we will again fight any unfair zonings. *We will again contact Mark Latham, Alan Jones and the team at 2GB who helped get the message out * We also will have legal assistance and a Class action will follow ...slowing and halting your plans. *Due to all the roadworks my husband recently had an accident in nearby Kemps Creek...this has now gone to the solicitors. The roads are not coping with all the traffic and roads have not been updated with signs. In reality all you need to be is respectful and fair to us living in the area. We acknowledge there is change coming but why is it that at every turn you people are trying to short change us and try and reap benefits from your injustice to us. Sorry we all are not Potato Farmers!!! Be fair! As we will fight this!
