Submission: Good Morning My husband and I are concerned about the zoning on our property. We live at [REDACTED] the diagram shows that our back easement has been shaded in green which I understand will be the green zone. We have estimated that will be a parcel of about 90m x 25 m. We feel this will hugely impact the future sale of our property. If looking at the map the way that part just darts out at our neighbours and our properties doesn't make sense to us. We would appreciate you look in to this matter for us and consider adjusting the zoning. Also we received our land valuations yesterday and they have increased dramatically, we have been told that our area will be the last to be affected by the airport they have given us a 10 year timeframe so that means we have to pay thousands in land rates each year waiting for future development ?? Looking forward to hearing from you please consider our submission Kind Regards Elena and Silvio Siracusa
