Suburb/Town & Postcode: Kemps Creek 2178

Submission file: [webform\_submission:values:submission\_file]

Submission: To whom it may concern, I am the owner of [REDACTED] Kemps Creek, NSW, 2178 and my property is the affected by the rezoning from RU4 to E zoning. I have lived at the property for 10 years now along with my family and think that it is very unfair and immoral for the government to rezone the properties without acquiring the property. There are alot of questions that go through my head when I think about the situation that we are facing such as; What can I do with my property? Who would want to purchase the property with an E zoning? Where will my family live if anything was to happen to my dwelling? By rezoning the property you have effectively made the property value \$0. I mean who would want to purchase a park? Also, part of my property (about 3% falls into the one category) being industrial and the rest into the E zoning. How is that even possible? My property has never been inundated with water despite possibly the worst rains Kemps Creek has ever seen in February 2020, I mean to say, how are these boundaries even determined, it doesn't make sense. By all means, I am not against the construction of the new airport and infact I am a big believer in progress and moving forward, however it will be the likes of people like my children and the remaining families in the street who will be affected by the changes and who will ultimately lose our livelihoods whilst the likes of big corporations stand to make a profit. Please take into consideration the livelihoods of the residents and the mental and physical stress/ torment that this would have on the people who are affected.
