Submission:

We bought our home [REDACTED] [REDACTED]  
Lack of information about our land over several years now has led to a lot of anxiety, stress and sleepless nights. Our future is uncertain when we were looking to retirement. We acknowledge that the 1/100 year flood zone has been moved back to where it was when we purchased it 30 years ago. Will the portion of our land in the flood zone be park and recreation? If it is privately owned but is to be public green space, how will that work? How will public liability be achieved under private ownership? Will services like sewerage, water, electricity, access roads, etc. be using this area? Does this mean government acquisition of all or part of the flood zone and how will it affect us?
