Submission: Livio Versi [REDACTED] Kemps Creek I live on 3 acres my life long dream of having my own space away from the ever-present noise of suburbia. Where my very close family could stay together & work in the surrounding area, we are a outdoors family & spend most of our time either in the yard or entertaining in the BBQ area. Upon hearing about the airport, I was pleased to have it come, better road & services for the area etc. but with the noise that will come from the aircraft being above 25 -35 ANEC the lifestyle we currently enjoy will no longer exist. This for my family & neighbors is such a mental strain it keeps me awake just wondering what our future holds. Now we hear that our land value is not what it once was that cannot be right. We own this beautiful property that I worked day and night to afford & now we can not sell & move onto a place away from the airport development. Please consider the E zone & the noise that will come to our street & acquire us at a sensible price & make us an example of how you are willing to work with residences and have a suitable outcome for all to see. After every meeting we have both neighbors and my wife are in tears not knowing what the future holds. Please do not make our Australian dream a national disgrace put yourself in my shoes what would you want done.
