Submission: Lisa Versi [REDACTED] Kemps Creek I live on a 3 acres property with my husband,2 sons and daughter in law, we purchased this property for its country like life style wide open spaces not too far away for travelling to work. It has become a meeting place most weekends for family & friends to come and relax have a BBQ, camp fire, swim, ride a motor bike a lot of our life style is spent in the yard. We have now been told that this will be a thing of the past as the noise from the planes will make it impossible to be outside, we won't be able to live here as well. We also run our business from the property with our location being not too far from the m7 ,m4, m5.While I understand the airport is going to be a great benefit for all it has put a lot of pressure on us all the sleepless nights my husband now has high blood pressure due to not knowing where we stand. The green zone that is proposed for the land the out dated flood study that is being used this is wrong we all agree with the airport so we should all be treated fairly. If the government want to zone our land for environmental and recreational then they should acquire us before the opening of the first runway in 2026 at a price that is for best use of our land. This is particularly up setting as well we are coming to an age to self-retire at the moment, we are helping the boys out because of the cost of living and as we age they will be here to look after us this is the life style we have chosen for our family everyone helping each other. Like is said fairness is all we are after we have worked too hard to end up with nothing We agree with the airport just be fair It would be great to actually talk to someone about all of this not left in the dark like we all have been.
