Submission: Toni-Maree Versi [REDACTED] Kemps Creek I live on this 3-acre property with my Husband's family I have just married and live in the granny flat at the back of the property. This is the opportunity very few people get to live and be able to save and hopefully one day be able to purchase our own place. My husband's family are the out doors type always having people over having BBQs and swimming in the pool. All of our friends think of this place as a second home. This looks like things might change but we would still love to stay with our family when we have to move. To do this they need to be able to afford a future similar to what they have now, we know we will not be as close to Sydney as we are now but forcing a change of area you live in is one thing not being able to have a life style the same is wrong. The plane noise will make living here unbearable, so please do the right thing and acquire this place for best possible use and allow us to plan our future else ware.
