Submission: I am Minh Cang Nguyen, and currently I'm very upset with the decisions made by the Government. I originally wanted large amounts of land to live on so the appreciation over time would be enough to sustain my family when we decide to leave. But due to the depreciation of our land value, my plans to sell my land at reasonable price. This is causing me severe stress because I'm not sure whether I will be able to support my family throughout this hard time for us. It is also very difficult for me to find a job because I have little to no education and speak little to no English. All I wanted was to be able to sell my land for the appreciated price so my children are able to go to school and get the education they deserve without any problems. But because of this decision by the government, YOU have jeopardised their right to education that all Australian Citizens deserve. So all I wish of the government is that they will be willing to purchase our land at a reasonable price to avoid any misfortune that will be bestowed upon my children.
