Submission: [REDACTED] Kemps Creek [REDACTED] I have a property that was to be kept in the family in the future for the future as I work very hard and try to look after myself for the future. My neighbours have been telling me of what the government plans to do for the airport. I am concerned that all my hard work that has gone into purchasing this property for my family's future is not taken from me at an unreasonable value. They say that the maps show the noise from the planes will make this area unsuitable for housing. This land has many other uses and is very valuable for other uses. Please let us know and please take the enormous stress of not knowing the future away and take early acquisition of this street. This is giving me stress and bad sleep towards me; this is not what I need in my life. Nicholas Wong (Son) The property is a big part of our family's future as it has a hefty price, lowering the price of the street will be detrimental towards the future and wellbeing of many families. My dad and mum have worked countless hours in order to purchase the property and just to strip away its value is very sad to see. Since the land is unsuitable for housing it can be used for many other uses, for example recreational reasons, this will not just benefit the families of the street but improve the overall characteristics of the Kemps Creek area. Please take our words and rethink about the future actions of the area, doing so will relieve stress from the families of the street definitively. Chansounida Daraphet (Wife) We've run the business for a very long time and put a lot of work into buying the house. The house is important for the future of my family and for my retirement. It is not just my family but house owners on the street would also be affected heavily as this may be the only property and thing they have left. My family is very against the government's future actions and wish to seek a change of plan in order to help our family flourish in the future. Hopefully they rethink their actions and plan so the families on this street can live a happy life knowing their property will not lose value due to the project. Courtney Wong (Daughter) This property among many other individuals in this street has an impact on their lives and i strongly disagree with the development that is going about in this area. This property value ensures that my family's money from working extremely hard will allow them to live a comfortable lifestyle in retirement. This is exceedingly devastating for not only my family but also for the families around our property, i am fully against the government's proposal and strongly believe that this part of project should be changed ensuring my family's property and properties around us value is to a high standard. Please have a change in mind as this will not only be affecting my family but a lot more families in kemps Creek
