Submission file:

Submission: Great idea, very supportive of the government investing in the area. key concern: 1) ensuring the flight paths is not over the lower blue mountains residents. Fly over the mountains, just not where people live. The blue mountains is a huge area, you don't need to put a flight paths above residents. 2) ensuring fast rail from the blue mountains to the CBD and more frequent services. population growth is great, but with it comes the need for efficient infrastructure, the current network is struggling. Sydney needs fast trains, utilising maglev technology. 3) more development should be allowed in the lower blue mountains to help with the population growth.
