Submission: SUBMISSION TO STATE GOVERNMENT To whom it may concern, Re - Priorities Precinct planning to include Dwyer Rd precinct. As a resident of Bringelly for over forty years, I am angry that the government has bowed down to the large land owners giving power to leave out a very special and important area for their own lucrative benefits. We have a well-organized resident action group and on board professional and proven experienced people in planning and developing such areas. We have carried out and invested a great deal of time to be able to tick every box the government has put up to block us from joining the rest of the airport development. My personal request is to be able to sell and move away with my wife and try to start a new life after the tragic loss of our son here. No families want to live here because of the governments own admissions (POLLUTION - NOISE - EXTREME CHANGES IN TRAFFIC CONDITIONS). We used to know or knew of nearly every family here, but it is definitely not like that now. Les Turner.

# SUBMISSION TO STATE GOVERNMENT.

To whom it may concern.

RE- Priorities Precinct planning to include the Dwyer road precinct.

As a resident of Bringelly for over forty years I am so angry that the government has bowed down to the large land owners power to leave out a very special and important area, for their own lucrative benefits. We have a well-organized resident action group and on board professional and proven experienced people in planning and developing such areas. We have carried out and invested a great deal of time to be able to tick every box the government has put up to block us from joining the rest of the airport development.

My personal request is to be able to sell and move away with my wife and try and start a new life after the tragic loss of our son here.

No families want to live here because of the government's own admissions (POLLUTION - NOISE - EXTREME CHANGES IN TRAFFIC AND CONDITIONS.

We used to know or knew of nearly every family here, but it is definitely not like that now.

Developers or Investors are not wanting to commit because of the forced uncertainty the government has blatantly caused by ignoring people's lives.

For forty years I have had this situation hanging over my family's heads. It is disgraceful that when most of us residents are elderly and are held to ransom by their own government because they are BULLIED by money hungry developers. This situation will not be going away unless we have the ( voted in) government consider the people that had faith in them. The same government WILL BE HELD ACCOUNTABLE, down the track. All we are asking is not to be treated special but just the same as everyone else.
